Expowork

Bench mark in modern exhibitions

The Company

EXPOWORK was founded in August 2003, as the official technical contractor of the most modern exhibition center in Greece at that time, EXPOATHENS. Following this successful business model, EXPOWORK offers now exclusive technical support at ATHENS METROPOLITAN EXPO, the largest & newest exhibition center in Athens.

EXPOWORK offers technical support to exhibitions, conferences & events. It covers a wide variety of your exhibitional needs and guarantees the smooth running of every event, during construction, operation and dismantling.

The advantages

- * Technical Expertise.
- * Highly specialized personnel in a wide range of activities.
- * Integrated portfolio of exhibition services.
- * Use of modern technical infrastructure and designing programs.
- * Excellent knowledge of the Exhibition Center due to exclusive activity in ATHENS METROPOLITAN EXPO.

Company

Services

The company's core activity is the rendering of exhibition and congress services.

The range of services covers:

- * Shell scheme stands
- * Electrical services
- * Furniture hire
- * Audiovisual media
- * Cleaning services
- * Security services
- * Voice - fax - internet
- * Photo shooting & video coverage
- * Connections to water supply & drainage network
- * Advertising Signage - Printing services - Banners
- * Rigging services

EXPOWORK's customer oriented philosophy and its focus on the exhibitors needs, enhanced by its Know-how and expertise, makes our company a valuable partner for you during your participation at exhibitions and events.

Metropolitan Expo covers a total of 50,000 m² indoor space that includes:

- Four (4) large, modern exhibition halls from 6,000 to 13,000 m² in parallel provision on the same level
- Two (2) conference halls, with 600 and 300 people capacity respectively. They have full audiovisual equipment, lighting dimmer, air conditioning and internet connection
- Two (2) impressive, independent reception halls (Lobbies 1 & 2), with a variety of services, sized 3,000 m², both of austere luxury, exceptional functionality and aesthetics
- One (1) comfortable main corridor of high aesthetics, with natural light and visibility, which consolidates all Centre's spaces, offering to visitors advanced services and infrastructures (rest areas, info kiosks, displays with routes for metro-suburban etc)
- Three (3) outdoor events' spaces of a total area of 6,800 m², which can accommodate any type of event, in a unique environment
- Seven (7) café and two (2) restaurants, stylish & functional
- Two (2) parking areas (PA & PB) of a total area of 100,000 m², designed for easy access and movement of vehicles
- 8,000 m² outdoor green areas, environmentally managed and in alignment with the wider natural environment

3D plan of the building

Metropolitan Expo is proved to be an ideal exhibition structure, hosting large scale events.

Our main competitive advantages are:

- Very tall exhibition halls, from 7 to 12 meters
- The venue provides exhibition space on one single level, improving and simplifying access for exhibitors and their contractors
- Many, spacious and fully accessible entrances for cargos & goods
- Floor structure for electrical, plumbing and sewer services
- Full air conditioning and ventilation of indoor space
- Advanced fire detection and fire protection systems
- State of the art technological infrastructure (telephony, wireless internet, sound installation)
- Easy circulation of visitors in all areas of the Centre

Access to Metropolitan Expo is more than easy, with many travel options. In detail:

- Metro, Suburban Railway, Urban (OASA) and Intercity (KTEL) Buses.
- By air, connected with many domestic, European and worldwide destinations.
- By car, via the Attiki Odos and regional roads (Vari - Koropi, Lavrion etc).

Metropolitan Expo is connected via shuttle bus, in a very short time and continuously with all the stops of public transport of the airport. The Exhibition and Convention Centre is quickly and easily accessed from Athens, the rest of Greece and abroad.

A significant competitive advantage of Metropolitan Expo is the enormous, functional parking lots on a total area of 100,000 m², with a capacity of over 4,500 cars.

SERVICES

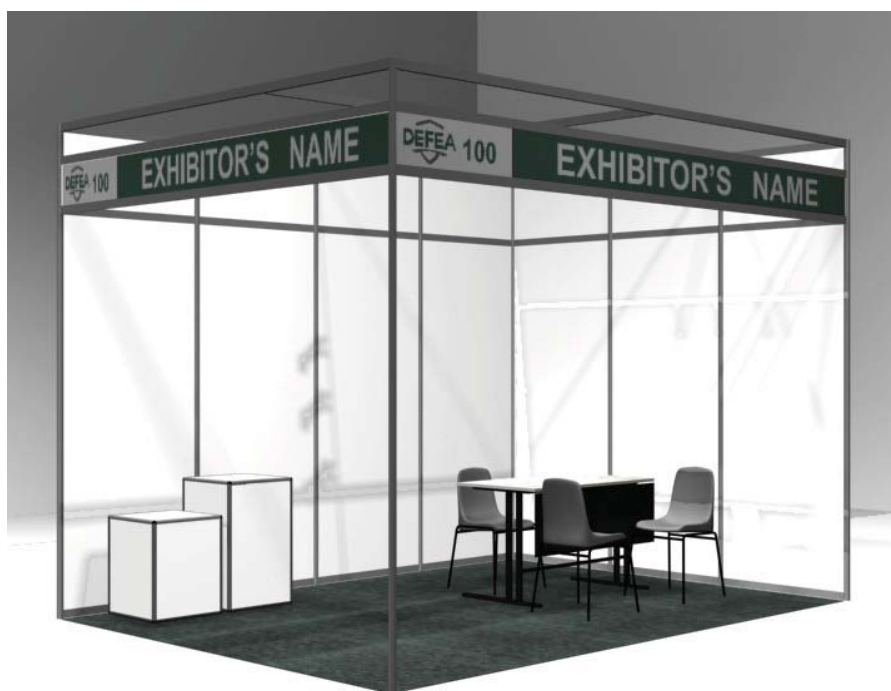

1 Shell Scheme Stands

a) Shell Scheme Stand - Basic Type

SERVICES

6 Security services

Security personnel guarding the stands according to exhibitors needs (preparation , exhibitions hours , etc)

▶ Ref.: 04030500

7 Internet

▶ Ref.: 05080150

Wired internet connection provided to your stand through a single Ethernet cable with RJ45 male connector.

The wired internet connection provides the opportunity for LAN creation inside stands area.

Service does not include wiring (network cables) between PC's and switch devices needed for connecting more than one PC to the same internet connection.

▶ Ref.: 05080158

Wiring (network cables) between PC's and switch devices needed for connecting more than one PC to the same internet connection.

▶ Ref.: 05080153

Note: The connection speed is not guaranteed. Various factors such as network traffic, network dimensioning and the total capacity of the internet service provider (ISP) at the specific time may influence the connection speed.

For additional support on network configuration or provisioning of extra network infrastructure, please contact EXPOWORK's help desk.

REGULATIONS

In order to protect human life and secure the structural integrity of the exhibition center, the following rules have been applied, regarding the rigging service from the ceiling of the building. Additional safety rules can be applied at any time.

RIGGING RULES OF THE EXHIBITION CENTER:

- EXPOWORK S.A. and the certified collaborators offer exclusively the rigging services from the ceiling of the halls and the other communal areas of the exhibition center
- Rigging of any kind of equipment or object from the exhibition's center ceiling is allowed exclusively and only at the points that are designated especially for this purpose from ATHENS METROPOLITAN EXPO S.A.
- Rigging of any kind of equipment or object from the utility networks (lighting, ventilation, sewage, fire engine and air conditioning networks) and the structural elements or any other point of the ceiling, of the columns or the walls, apart from the two (2) suggested points, is definitely forbidden.
- Rigging service comes as a result of studying several resultants, such as position, weight and height of the equipment to be rigged and it is not taken for granted. Rigging service is not always applicable but depends on several factors like weight, position & height of equipment.
- EXPOWORK S.A. reserves the right not to fulfil the requirements that come under the restrictions of the ceiling, according to building restrictions, at the point that the stand is situated or for safety reasons.
- EXPOWORK S.A. reserves the right to check and forbid the use of the client's rigging equipment. The client's rigging equipment should fulfil the European standards of safety and function and should be in good and functional condition.
- The weight rigging limit is 150kgr per spot at the current meter, including the weight of the spots and the equipment to be rigged (one meter minimum distance between two spots).
- Any weight exceeding the predefined limits should be removed by EXPOWORK S.A. at exhibitor's expenses.
- It is not permitted to lift objects weighing over 40kgr or larger than 3 meters length using elevating platforms.
- Under no circumstances should anyone hang, walk or climb on a rigging point or on the rigging equipment that is applied on the ceiling.
- The service for installing rigging points is valid only for the exhibition that is indicated on the application and for the specific stand position/number and surface of the stand.
- Every application regarding the rigging service should be handed over at EXPOWORK S.A. at least fifteen (15) days before the commencement of the exhibition preparation. The application should be accompanied by a drawing and a sworn statement. The drawing should include the total equipment to be rigged, the positions, weights, points of electricity, dimensions and material description. EXPOWORK S.A. will check the rigging drawing for compliance with the present regulations and the regulations of the exhibition center, so as to approve or suggest any amendments. If there are any later modifications of the plan, they should be submitted, accompanied with a new sworn statement, in order to be approved, the latest ten (10) days before the commencement of the exhibition's preparation period. Plans that have not been approved by EXPOWORK S.A. will not be materialized.
- Any non approved construction or construction that does not satisfy the specifications / requirements of the present regulations or the regulations of the exhibition center shall be removed by EXPOWORK S.A. at the exhibitor's expense.
- EXPOWORK S.A. is able to exclude any kind of operation or/and installation of equipment that, according to its judgment, can cause problems of technical nature or/and proper function of the exhibition center or can change or degrade its appearance or function.
- The exhibitor is exclusively responsible for any damages caused due to inaccurate information provided or rigging on his own, his employees, any additional agents & his constructors. EXPOWORK S.A. is not responsible for the construction that will be rigged by the ceiling or for the actions that the client does by himself during the rigging of the construction.
- Additional safety steel wire is required for any object that is hung with sling nylon. All rigging material (lights, sound, image, marking) should include safety steel wires. The rigged equipment should not obstruct and should have at least 50 cm distance from the ceiling networks.
- In order to rig banners, at least two (2) rigging points are required and proper infrastructure (rigging bar above and below, sewn pockets that will support the bars and overlap at least 5 cm from each side).
- By signing the application for the rigging service, the client states that he is aware of the terms of the present regulations, which constitute an inseparable part of the present application and he accedes with no objection.

Instructions

Instructions for the Construction & Dismantling Periods

Construction Period

- ▶ Upon arrival at the ATHENS METROPOLITAN EXPO, the exhibitor or his authorized representative shall take delivery of the stand from the hall supervisor.
- ▶ All sides of special design stands must be aesthetically acceptable, mainly at the border of different stands. The rear side of constructions exceeding 2,5m in height must also be presentable and painted white.
- ▶ Fire stations or fire extinguishers, electrical elements, water supplies or waste pipe connections must not be covered by any sort of structure for easy access in case of emergency.

The following actions are not permitted:

- ▶ Cutting wood or plasterboards, as well as using power-tools and equipment, such as spray paint compressors, anywhere inside the Exhibition Centre. Such operations are only permitted outdoors at special designated areas.
- ▶ Drilling and nailing on the floor, the pillars, the ceiling and any other structural part of the building.
- ▶ Drilling and painting of panels and aluminum frames of shell scheme stands (for suspending purposes, you may request special hooks from the exhibitors' service desk).
- ▶ Suspending any item from the ceiling or any other structural part of the halls, or the utility network lines, running parallel to the ceiling.
- ▶ Covering walls and corridors.
- ▶ Any intervention to the electrical installation without prior approval of the facility's chief electrician.
- ▶ Should you object or disagree to any service provided by Expowork, please inform our Customer Care Dept. up to the end of the first day of exhibition's operation.
- ▶ Our equipment and services are only provided during the official duration of the exhibition. Our equipment has to be ready for recollection by our staff, 1 hour after the end of the exhibition.
- ▶ Electricians who undertake electrical installations of Customized Stands, are obliged to fill in the relative sworn statement (check with the EXPOWORK - Customer Service Dept.), attaching a photocopy of their professional license and hand it over to the EXPOWORK - Customer Service Dept., in order for their stand to be supplied with electricity.
- ▶ Breach of any of the above regulations leading to any damage, shall entail the full restoration of such damage and compensation deposit as calculated by EXPOWORK.
- ▶ Cleaning of paint brushes and other painting equipment is permitted only in designated areas (sinks), situated in each exhibition Hall.

Stand Dismantling / Exhibitor Departure

After the end of the exhibition, exhibitors should first settle any outstanding payments with EXPOWORK, and then depart, within the time limit specified by the organizer, after having removed all exhibits and decoration materials used during the exhibition. Should the exhibitor leave any construction material on site, a removal cost will be charged.

For All Orders

For your order to be valid, you must send the relevant form within the designated time frames (as stated on the order forms) and settle the respective amount by: bank transfer (see below bank details), credit card (Visa, Mastercard, Diners) or pay directly at Expowork's Cashier Desk.

Exhibitors Information

a. SHELL SCHEME STANDS

1. The standard shell scheme stand includes a basic electrical board which is placed on the top of one of the panel walls of the stand, according to electrician's discretion (except from business and executive stands where the board is placed in the storage room). If you wish this electrical board to be placed on a different panel, you will have to indicate it on a drawing/plan of your stand and send it to us the latest 30 days before the opening of the exhibition.
2. Orders that concern electrical equipment / installations or/and stand constructions, e.g. Installation or connection of floodlights, storage areas, ceiling beams to hold extra lights e.t.c., cannot be executed unless they are accompanied by a drawing/plan indicating their exact positions.
3. The permanent electrical supply of your stand (according to your order) becomes available 1 day before the opening of the exhibition only if your account with our company has been settled.

b. OPEN SPACE STANDS

1. The order of the stand's power supply should be sent to us the latest 30 days before the opening of the exhibition, attaching a drawing/plan indicating the position of your electrical board. In case we do not receive the accompanying drawing, your order cannot be executed.
2. The electrician performing the electrical installations in your stand has to fill in, sign and stamp the Electricians' Solemn Declaration Form, mentioning the total power supply in kw needed, as also to attach a copy of his professional license (expiration date and number must be distinct).
3. The Electricians' Solemn Declaration Form which is filled in by the exhibitor's electrician is an accompanying document to the electrical equipment form order which needs to be filled in, by the exhibitor.
4. Open space stands must have installed an electrical board with differential relay. If not, it is possible to order such kind of electrical board, through Expowork.
5. In order to test the electrical installations at your stand, during the exhibitions' build-up period, the "Electricians' Solemn Declaration Form" should have already been sent to Expowork's customer service department.
6. During the build-up period, electrical power sockets are provided in specific positions of each Hall for the stand's construction needs and they operate only during this period.
7. The permanent electrical supply of your stand (according to your order) becomes available 1 day before the opening of the exhibition, only if all documents ("Electricians' Solemn Declaration Form" and professional license) have been submitted and your account with our company has been settled.
